

Technology Volunteer

New directions in technology efforts are aimed at presenting and supporting music teaching and classroom issues through the use of software and technology equipment.

Name: _____

School: _____

Address: _____

School District: _____

Phone: _____

E-mail address: _____

School web address: _____

RESOURCE LIST

Support and training is especially an issue in technology, so we'd like to find out who in Colorado is involved with technology. Please indicate the areas that you are willing to help with:

- _____ Phone or e-mail support
- _____ Onsite help
- _____ In-service presentations
- _____ Facility use (allow others to come to your location to borrow equipment, e.g. to print out a needed part or arrangement)
- _____ Take equipment to other sites for demonstration/training
- _____ Your name, school, and e-mail can be posted on the CMEA website Technology Resource List.

CLINIC/CONFERENCE ASSISTANCE

Technology sessions have expanded. Interested participants are needed to assist with smooth operations to help ensure quality sessions. Please indicate the areas that you are willing to help with:

- _____ Room host (Greet visitors, encourage participation, assist with facilitators)
- _____ Preside (Introduce clinicians; assist with supplies such as handouts, etc)
- _____ Set-up and Tear down of equipment

2008 CALL FOR PROPOSALS

Technology sessions are based on hardware/software applications that address: music curriculum; comparisons of teaching tools and techniques using technology products; or research/development based on music curriculum, classroom applications, or music teaching. See Call for Proposals to submit technology proposals.
